Twist Stop Guide

the original

TMT
Barmag
Rieter-ICBT
RPR
SSM

the definite way to stop twist

advantages

-  all yarn profiles
-  all yarn counts
-  extreme low filament breaks
-  robust and rigid

due to:

-  original design by BROELL
-  optimised yarn path
-  advanced BROELL-ceramics
-  superb start-up behaviour
-  protection shield
-  sturdy design
-  easy handling and cleaning
-  easy replacing of ball bearing
-  high efficiency ball bearing

if the yarn can decide - it will be a BROELL Twist Stopper
