

ultra dense ceramics

Ceramic Guides & Rollers

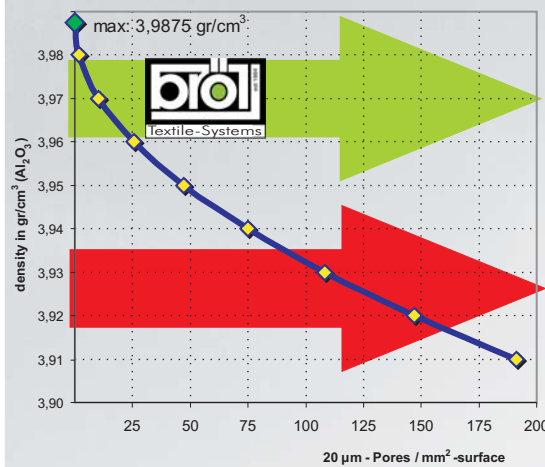

TMT
Barmag
Giudici
Rieter-ICBT
RPR
SSM

advantages

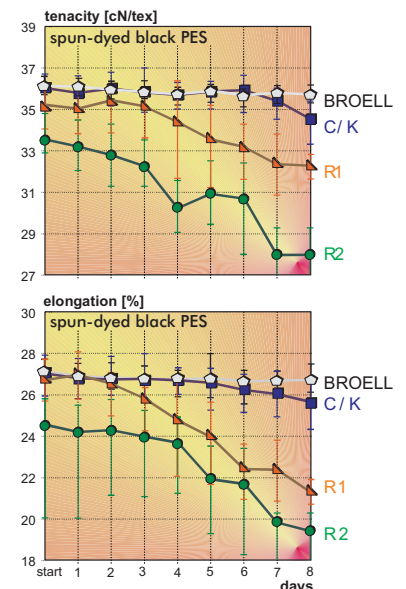

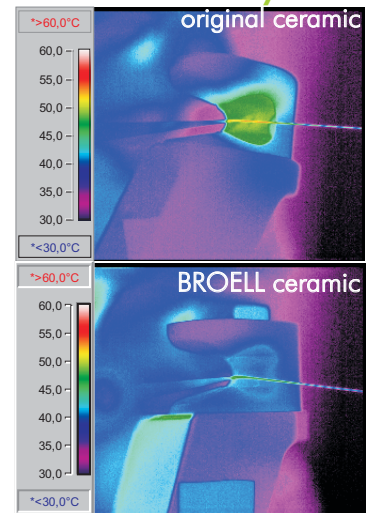

- highest wear and corrosion resistance
- maximum service life
- prevents filament breaks

due to:

- advanced BROELL-ceramics
- high grain boundary strength
- sophisticated ceramic processing
- engineered surfaces:
for smooth filaments and textured yarns

cool ceramic for cool yarns

the smoothest surfaces engineered on the hardest materials
